deployment-guide.md
```

Mô tả các thành phần chính:

1. Scripts chính

- deploy-tenant.sh: Script bash chính để triển khai tenant
- generate_terraform.py: Python script tao Terraform template tù parameters
- setup_backend.sh: Script khởi tạo Terraform backend storage
- cleanup_tenant.sh: Script don dep resources

2. Templates

- nginx.conf.j2: Template cấu hình Nginx với Jinja2
- docker-compose.yml.j2: Reference template cho Dify components
- backend.tf.j2: Template cho Terraform backend configuration

3. Tenants Directory

- Mỗi tenant có thư mục riêng với:
 - Terraform files được generate
 - Configurations files
 - Deployment information

4. Global Resources

- Terraform backend storage
- Shared monitoring/DNS resources
- Common modules

5. Documentation

- Deployment guide
- Architecture documentation
- Troubleshooting guide

Terraform Modules Structure
